A COLLECT FOR CLUB WOMEN

(Revised)

By **Mary Stewart**

Keep us, O God, from pettiness; let us be large in thought, in word, in deed.

Let us be done with fault-finding, and leave off self-seeking.

May we put away all pretense and meet each other face to face without self-pity and without prejudice.

May we never be hasty in judgment and always generous.

Let us take time for all things, make us grow calm, serene, gentle.

Teach us to put into action our better impulses, straight-forward and unafraid.

Grant that we may realize it is the little things that create differences; that in the big things of life we are at one.

And may we strive to touch and to know the great common human heart of us all, and O, Lord God! let us forget not to be kind.

PRESIDENT'S MESSAGE

As this administration opens we begin the second year in our own home, now comfortably settled with adequate facilities and furnishings for all our club meetings and activities as well as for community affairs. This splendid achievement was accomplished through the years by the unselfish efforts of members dedicated to the primary object of our club—forming "a recognized center for social and mental development."

Our club house is attractive, but "the ornament of a house is the friends who frequent it" (Emerson). With this in mind let us aim to stress friendship in every aspect of our club work by thinking of ourselves as a friendly partnership of members working together to help each other put forth our best efforts for the good of all—in the club, the federation, the community, the state, indeed the whole world.

Basically a club is just as good as the people who are in it. Actually quality is people, or at least it is the result of imagination at work in the minds of many people. Club work provides innumerable opportunities for stimulating the imagination, but what leads most women to give their very best is more often than not the encouragement that comes from their friends—encouragement to express and execute their own ideas, thereby developing socially and mentally.

Ours is a quality club; we could never have achieved what we have in the past were we not. A club, however, is not a static thing and in order to maintain the quality necessary for carrying on the responsibilities of having our own club house we will have to work at it constantly with unselfish effort.

Let us therefore "ornament" our club house with friends and friendliness to such an extent that our highest achievement is the development of members who have the sense of responsibility that comes with personal growth.
